

THE ISRAELI RESEARCH ASSOCIATION FOR
EYE HEALTH AND BLINDNESS PREVENTION (R.A.)

No torment is greater than the torment of blindness

**If you are able to read these words,
you are able to help us.**

The Scientific Council is comprised of senior scientists and ophthalmologists from Israel and abroad including:

- Directors of hospital ophthalmology departments
- Heads of Research and Development departments at leading pharmaceutical companies
- Deans of medical schools

HOW CAN YOU HELP?

In order to promote research and enable a significant development of treatments for blindness-causing eye diseases, we need your help.

Your contribution will accelerate the research process and will help prevent the suffering of children and adults who are affected by blindness and progressive vision loss.

- > By supporting national public awareness days to focus the public eye on preventive care and “early diagnosis”
- > By supporting the updating of our internet site, in order for it to become the main website in the field of eye health research
- > By contributing to the association’s activities
